MEMORANDUM FOR

Executive Secretary, NFIB

SUBJECT: Nominations for Chairman, Joint Atomic Energy
Intelligence Committee (JAEIC)

Reference your memorandum of May 6, 1985, same subject. Unfortunately, I do not have a Department of Energy candidate to propose for the chairmanship of the JAEIC. However, I feel that the candidates should be strong advocates of the JAEIC playing a central role in the articulation and coordination of concise nuclear intelligence requirements.

One of the first tasks the new chairman should undertake is to make sure that both the SIGINT and HUMINT requirements are reviewed, rewritten, coordinated and resubmitted to the SIRVES and HUMINT groups. I also think that the JAEIC could play a greater role in coordinating and prioritizing the analysis of foreign nuclear developments.

A handwritten signature in dark ink, reading "Charles V. Boykin". The signature is fluid and cursive, with the first name "Charles" being the most prominent.

The Honorable William J. Casey
Director of Central Intelligence
Washington, D.C. 20505

Dear Mr. Casey:

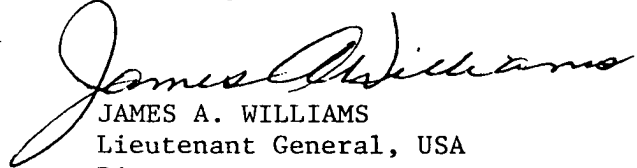

I note that one of your key committees, the Joint Atomic Energy Intelligence Committee (JAEIC), is currently without a chairman. I have not yet seen a community request for nominees for this key position, but I would expect such a request in the near future.

To ensure that the Intelligence Community obtains the services of the best qualified person for this position, I would like to nominate a member of this Agency. [redacted]

[redacted] is currently serving as my Nuclear Division Chief, in our Directorate for Scientific and Technical Intelligence. His work here with us has been exceptionally outstanding and I strongly believe that he would make a significant contribution to our national intelligence capabilities as Chairman of this key committee. I have attached a brief biographic sketch of [redacted] for your information.

I appreciate your consideration in this matter and look forward to hearing from you in the near future.

Sincerely,

JAMES A. WILLIAMS
